Cycle indicator to determine the phase of sterilization cycle

Program/Cycle selection

Complete with standard accessories and removable shelves

capable of taking both packets and containers of all standard sizes

Chamber capacity 01 STU

Rectangular shape

Chamber, jacket and doors made of AISI 316 L/Ti

Complete system with built-in water saving system

Automatic heat exchanger and Air detector

Two loading / unloading trolleys and one loading carts compatible with system

UPS of suitable capacity with minimum 15 minutes for Controller cum display for

monitoring and controlling of parameters during power shedding provided/ installed by the

manufacturer

RO Plant (50 gallon per day) as a part of standard specification (Local Made)

The firm should quote the price of RO plant with the sterilizer.
